# HTML Homework

## Exercise

### Requirements

- Using HTML elements properly
- Use HTML attributes properly
- Use proper HTML5 elements to structure the website.

### Instructions

For this assignment you will be making a sample band website. In this first assignment you will start by creating the HTML structure of the band website. There will be no CSS, it will just be HTML. The CSS will be added in for the next assignment, after CSS is covered in class. A screenshot of what the page with just HTML should look like will be provided.
